Scope and Description of Project (What)

THIS EQUIPMENT WOULD ALLOW OFFICERS THE ABILITY TO SCAN A SUSPECTS FINGERPRINTS RIGHT IN THE SQUAD, AND PHOTOS COULD BE SENT AND RECEIVED RIGHT IN THE SQUAD.
 RR - I don't have enough details to be able to indicate if this is a good price or not. There are too many variables. I don't think it would come in for too much less than the \$250,000. Currently I don't think there is enough bandwidth to the cars to support this transmission. We are working with a vendor to try to develop an alternate transmission option, but as of this review non-exists to support image transmission to the car
 MW: Does this work over RF ?

Justification of Project (Why)
