Project Contact Person: Michael Burks

Department: HSD **Project ID:** _____

Has this package been adjusted from prior year submission: (yes or no) _____

If this has been modified please identify where and why.

Scope and Description of Project (What)

85 standard desktop Omni Tech PC's with Windows OS, 128 meg RAM, 17" monitor, video adapter, 20 gig HD, sound, TR NIC

Justification of Project (Why)

HSD will have over 250 PC's reach the end of their useful life at approximately the same time. This package will replace a portion of them so all PC's don't reach the end of their useful life at the same time. This schedule will replace all PC's by the time the oldest is 7 years old. At that point, 2004, the replacement schedule moves to five years or 20% per year. Price = \$1,500 each.

Alternatives

Do nothing - it does not resolve the problem

Replace fewer - Replacing PC's at the rate of 85 per year means the oldest PC will be 7 years old by the time it's replaced.

Impact of not accepting project

At some point, PC's need to be replaced. They wear out or the technology will no long support the applications. Replacing a portion of the PC's each year tends to keep the technology current and avoids the potential problem of having to do a mass change at one time.
